Fort Vermilion School Division - Outreach Program Welcome To The Learning Store!

You have been accepted into our program and we would like to share some important information about how we operate to achieve success:

- We move forward at the Learning Stores; forward with your education, forward with life skills, and forward with your personal goals.
- Students and staff will review a plan for your education. This will include your Detailed Academic Record, and other school records.
- Students are expected to hand in work, or touch base with a staff member on a weekly basis.
- Students that **do not** hand in work or touch base every week, will be considered **inactive**, and be removed from our register after three consecutive weeks.
- We want to read your ORIGINAL work. Do not plagiarize, or copy material. Plagiarism will result in a re-submission of work.
- Students will be charged for lost module booklets, or textbooks.
- Students can view their current marks on our school software, called Student Portal. Setup instructions can be obtained at the office.
- Students can track all completed courses on the Alberta Education online program, myPass. Setup instructions can be obtained at the office.
- Our team is here to support you academically, socially and emotionally. We look forward to working with you :)

Student Signature

Date

Parent/Guardian Signature

Date

As staff, I have reviewed the above with the student and parent/guardian.
